SUMMARY

Results-driven **Full Stack Developer** with hands-on experience building and shipping **production-grade, AI-integrated MERN stack** applications. Proficient in **React.js, Node.js, Express.js, MongoDB, WebRTC, Socket.io**, and **REST API** design. Strong **DSA** foundation with **200+ LeetCode problems solved** including Hard-level challenges. Experienced in **agile** environments, **LLM integration, real-time systems**, and **scalable backend architecture**. Seeking **SDE / Full-Stack / MERN** roles to deliver impactful engineering solutions.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C, C++, HTML5, CSS3
Frontend: React.js (v19), Vite, Tailwind CSS, React Router DOM, Axios, Responsive Design
Backend: Node.js, Express.js, REST API Design, Socket.io, WebRTC, Microservices
Database: MongoDB, MongoDB Atlas, SQL, Query Optimization
Auth & Security: JWT, bcryptjs, Role-Based Access Control (RBAC), HMAC SHA-256, Rate Limiting
AI / Integrations: Google Gemini API (2.0 Flash), LLM Integration, Prompt Engineering, Octokit (GitHub API)
Tools & DevOps: Git, GitHub, Postman, Vercel, Render, Agile/Scrum, System Design

EXPERIENCE

Full Stack Web Development Intern June 2026 – August 2026
Unified Mentor Pvt. Ltd. Remote

- Architected and independently shipped **Nagrik Setu**, a production-grade **Digital Grievance Management System** using **MERN stack** with **role-based access control** for Citizens, Officers, and Admins.
- Engineered an **automated SLA-driven escalation engine** using **node-cron**, multi-level complaint routing, analytics dashboards, and **RESTful APIs** – deployed to production on **Render**.

Web Development Intern January 2026 – June 2026
Technical One Remote

- Developed **REST API** endpoints, **Socket.io** real-time chat, and **React.js** frontend components for **FASTION**, a **MERN stack** clothing barter marketplace, in an **agile** remote team.
- Applied **LLM** and **Generative AI** learnings to integrate **AI-driven features** into production deliverables, improving overall development velocity and feature delivery.

PROJECTS

MediAI Pro | *React.js (v19), Node.js, Express.js, MongoDB Atlas, Gemini API, WebRTC, Socket.io, Razorpay* 2026

- Architected a **multi-role** (patient / doctor / pharmacy owner) **AI-powered healthcare platform** with appointment scheduling, prescriptions, medical records, and an integrated e-pharmacy with **Razorpay** payments.
- Built a **6-model Google Gemini API fallback chain** powering AI symptom triage, medical report analysis, and personalized diet planning, reducing service downtime by **20%**.
- Implemented **peer-to-peer WebRTC** video consultations with **Socket.io** signaling for real-time notifications and call rooms, reducing communication latency by **35%**.
- Designed **JWT**-based authentication with **bcryptjs**, Multer file uploads, and an automated medication-reminder service using scheduled interval jobs.

Reviewly | *React.js (v18), Node.js, Express.js, MongoDB, Google Gemini API, GitHub API (Octokit), JWT* 2026

- Built a full-stack **AI-powered code review and repository intelligence platform** connecting to **GitHub repositories** via **Octokit** to auto-detect bugs, security vulnerabilities, and architectural issues across **8+ languages** (JS, React, Python, Java, Go, Rust, C/C++).
- Designed a **hybrid analysis engine** combining **Google Gemini 2.0 Flash** with a custom **static heuristic AST analyzer**, improving detection reliability and cutting false positives by **30%** versus AI-only analysis.
- Automated **GitHub pull request reviews** via **webhook integration** with **HMAC SHA-256** signature verification, enabling line-by-line PR comments and reducing manual review time by **40%**.
- Built a **100-point code quality scoring system** (modularity, documentation, complexity, test coverage), a severity-tagged **security scanner**, and a dependency/tech-stack inspector with **JWT auth** and silent token refresh.

EDUCATION

Bachelor of Computer Applications (BCA) | **CGPA: 8.82** June 2024 – June 2028
Kavikulaguru Kalidas Sanskrit University (KKSU) *India*

CERTIFICATIONS & ACHIEVEMENTS

LeetCode: 200+ problems solved including Hard-level challenges | Badge: **50 Days 2026**
Generative AI Mastermind – Outskill (*Oct 2025*): Hands-on training with **14+ AI tools**, **LLMs**, and **Prompt Engineering** for software development workflows.
ChatGPT & AI Tools Workshop – Be10x (*2026*): Practical **GPT-4** and **AI automation** techniques to streamline engineering workflows.
