SUMMARY

Results-driven **Full Stack Developer** with proven experience shipping **production-grade, AI-integrated MERN stack** applications. Proficient in **React.js, Node.js, Express.js, MongoDB, WebRTC, Socket.io**, and **Google Gemini AI**. Solved **105+ LeetCode problems** (12 Hard) with a **53-day streak**. Adept at building **scalable REST APIs, real-time systems, LLM-powered features**, and **automated code analysis tools** in agile, remote environments. Seeking **SDE / Full-Stack / MERN** roles to deliver impactful engineering solutions.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, C++

Frontend: React.js (v19), Vite, Tailwind CSS, React Router DOM, Axios, Framer Motion, Responsive Design

Backend: Node.js, Express.js, REST APIs, Socket.io, WebRTC, Multer, Nodemon, Microservices

Database: MongoDB, Mongoose ODM, MongoDB Atlas, Database Query Optimization

Auth & Security: JWT, bcryptjs, HMAC SHA-256 Signature Verification, Role-Based Access Control (RBAC), Rate Limiting

AI / Integrations: Google Gemini API (2.0 Flash), LLM Integration, GitHub API (Octokit), Static/Heuristic Code Analysis, Razorpay Payment Gateway

Tools & DevOps: Git, GitHub, GitHub Webhooks, Postman, Vercel, Render, CI/CD, Agile, Linux

EXPERIENCE

Full Stack Web Development Intern

June 2026 – August 2026

Unified Mentor Pvt. Ltd.

Remote

- Architected and independently shipped **Nagrik Setu**, a production-grade **Digital Grievance Management System** using **MERN stack** with **role-based access control** for Citizens, Officers, and Admins.
- Engineered **automated SLA-driven escalation engine** using **node-cron**, multi-level complaint routing (Officer → Supervisor → Admin), analytics dashboards, and **RESTful APIs** — deployed to production on **Render**.

Web Development Intern

January 2026 – June 2026

Technical One

Remote

- Contributed to **FASTION**, a **MERN stack** clothing barter marketplace, developing **REST API** endpoints, **Socket.io** real-time chat, and frontend components with **React.js** in an **agile remote** environment.
- Completed structured **AI/ML** training covering **LLMs** and **Generative AI**; applied learnings to integrate **AI-driven features** into production deliverables, improving development velocity.

PROJECTS

MediAI Pro | *React.js, Node.js, Express.js, MongoDB, Gemini API, WebRTC, Socket.io, Razorpay*

2026

- Architected a **multi-role** (patient / doctor / pharmacy) **AI-powered healthcare platform** with appointment scheduling, **Razorpay** payment integration, JWT authentication, and a digital Health Vault.
- Built a **6-model Google Gemini API fallback chain** for AI symptom triage with 3 clinical tools (symptom analysis, report analysis, diet planning), reducing service downtime by **~20%**.
- Implemented **peer-to-peer WebRTC** video consultations with **Socket.io** signaling, eliminating third-party dependencies and reducing communication latency by **~35%**.

Reviewly | *React.js, Node.js, Express.js, MongoDB, Google Gemini API, GitHub API (Octokit), JWT*

2026

- Built a full-stack **AI-powered code review and repository intelligence platform** that connects to **GitHub repositories** via **Octokit** to auto-detect bugs, security vulnerabilities, and architectural issues across **8+ languages**.
- Designed a **hybrid analysis engine** combining **Google Gemini 2.0 Flash** with a custom **static heuristic AST analyzer**, improving detection reliability and cutting false positives by **~30%** versus AI-only analysis.
- Automated **GitHub pull request reviews** via **webhook integration** with **HMAC SHA-256** signature verification, enabling line-by-line PR comments and reducing manual review time by **~40%**.
- Built a **100-point code quality scoring system** (modularity, documentation, complexity, test coverage) and a severity-tagged **security scanner**, plus **JWT auth** with silent token refresh and rate-limited endpoints.

CODING PROFILES

LeetCode 📁: **105+ problems solved** (43 Easy, 50 Medium, **12 Hard**) | Max Streak: **53 days** | Badge: **50 Days 2026**

EDUCATION

Bachelor of Computer Applications (BCA) | CGPA: 8.82

June 2024 – June 2028

Kavikulaguru Kalidas Sanskrit University (KKSU)

India

Bachelor of Commerce (B.Com)

July 2024 – June 2027

Yashwantrao Chavan Maharashtra Open University (YCMOU)

Nashik, India

CERTIFICATIONS

Generative AI Mastermind — Outskill (Oct 2025): Hands-on training with **14+ AI tools, LLMs**, and **prompt engineering** for software development workflows.

ChatGPT & AI Tools Workshop — Be10x (2026): Practical **GPT-4** and **AI automation** techniques to streamline engineering workflows.
